Emily M. Hunt, Ph.D.

Dr. Hunt has been at West Texas A&M University for 4 years. She is currently an assistant professor of mechanical engineering and teaches engineering, engineering technology, and mathematics.

Her research is in the combustion of energetic materials and explosives as well as K-12 engineering education. Dr. Hunt is originally from Canyon, TX and is very excited to be back at home.

Her husband Aaron, is an assistant principal at Westover Junior High in Canyon. They have three children ages 2, 3, and 5.

Dr. Hunt loves teaching at WTAMU because of the hard working students and her desire to help them to succeed.
