

NSF STEP and the Science Club **present**

**“Probing Properties of
Neutron Stars with Nuclear Reactions
In Terrestrial Laboratories”**

A lecture presentation by

Dr. Bao-An Li
Texas A&M University-Commerce

Wednesday, September 24, 2008

12:30 pm – 1:30 pm

Room S-101

Eastfield College, 3737 Motley Drive, Mesquite, TX. 75150

www.eastfieldcollege.edu/rcd/nsf

Dr. Bao-An Li

professor and the head of the Department of Physics at Texas A&M University-Commerce, received his Ph.D. degree in 1992 from Michigan State University.

Dr. Li held research and/or faculty positions at Oak Ridge National Laboratory, Niels Bohr Institute in Copenhagen, National Superconducting Cyclotron Laboratory at Michigan State University, Free University of Berlin, Texas A&M University in College Station, Arkansas State University and Texas A&M University-Commerce.

His major research interests are in nuclear theory, nuclear astrophysics and computational physics. Dr. Li has published one book and 136 refereed papers. He has also given over 150 invited talks and seminars.

According to Google Scholar, Dr. Li's publications have been cited over 3000 times. Dr. Li's work is currently supported by the National Science Foundation, the Texas Coordinating Board of Higher Education and the Research Corporation.
