INDUSTRY, MANUFACTURING, AND CONSTRUCTION

GUIDED PATHWAY: WELDING TECHNOLOGY

For more information, visit www.dcccd.edu/Welding and your academic advisor at Mountain View College.

This is an example course sequence for students interested in pursuing the Welding associate degree. It does not represent a contract, nor does it guarantee course availability. Following this pathway will help you earn an Associate of Applied Science (AAS) degree in Welding Technology². For official degree requirements, [click here](#).

The AAS degree program in Welding Technology is designed to prepare the student in the basic processes of oxyacetylene and arc welding plus many specialized welding applications as options to fit the specific needs of the student. In addition, instruction is offered in related support areas such as metallurgy, tooling, drafting, pattern layout and characteristics of materials. Thus, the program offers preparation for both entry-level jobs as well as welding inspectors. Gainful employment information for this degree can be found at www.dcccd.edu/gainfulemp. Courses that complete the Degree (D), the Gas Metal Arc Welding (GMAW) Certificate (GM), the Gas Tungsten Arc Welding (GTAW) Certificate (GT) and the Shielded Metal Arc Welding (SMAW) Certificate (SM) are noted below.

Visit www.ntxccc.org/pathways to view guided pathways created for students who complete an AAS degree and the options for transfer to complete a Bachelor of Applied Arts and Science. Speak with an academic advisor at your college to choose courses that will help you to transfer to a specific university.
