ESSENTIAL DUTIES AND RESPONSIBILITIES

Provides leadership, planning, budgeting, and supervision to the IT department at a college location. Monitors the day-to-day delivery of current and projected services to maintain or improve quality output. Oversees the management of desktop administration, network administration, IT security, IT service administration and disaster recovery, systems and processes. Ensures compliance with DCCCD policies/procedures and regulatory rules and regulations to ensure proprietary information is safeguarded. Stays up-to-date on best practices and technological changes in the industry through professional development activities.

Protects the college and its operations against IT risks, including unauthorized access to information, data integrity problems, loss of processing capability, and poor service levels. Evaluates information risk on a regular time schedule and promotes information security awareness within the organization. Manage multiple technical problems simultaneously, providing assessment, solutions and design for future growth. Analyzes technology needs to determine scope and priorities of projects, system capacity and new installations of software or hardware.

Builds and maintains effective and collaborative working relationships with diverse stakeholders and constituents within the DCCCD network community to ensure network services, information security and disaster recovery programs are in accordance with internal/external security standards. Leads all activities at the campus level for computers, software, servers and media. Collaborates and serves on numerous committees, working with staff, supervisors and executive leadership to determine business needs.

Lead and coordinate development of infrastructure to ensure key business strategies and processes are supported by systems that enable growth and flexibility. Leads efforts to improve IT processes, research and recommend new products to enhance work production. Exercises staff oversight to ensure new operational plans, policies, procedures, and transition/migration plans are consistent with the overall goals and objectives of the district. Oversees all IT-related purchases and budget usage.

Utilizes excellent listening, oral and written communication skills to communicate with a diverse array of stakeholders and constituents with varying level of technical knowledge. Gives presentations on project proposals, strategic initiatives, and provide updates on scope of projects and deliverables. Continually defines ways to increase internal client satisfaction and deepen client relationships.

Supervises approximately 10+ staff (direct/indirect) and manages a budget of approximately \$1.5+ million.

Performs other duties as assigned.

The intent of this job description is to provide a representative summary of the major duties and responsibilities performed by incumbents of this job and shall not be construed as a declaration of the total of the specific duties and responsibilities of any particular position. Incumbents may be directed to perform job-related tasks other than those specifically presented in this description. Position requires regular and predictable attendance.
